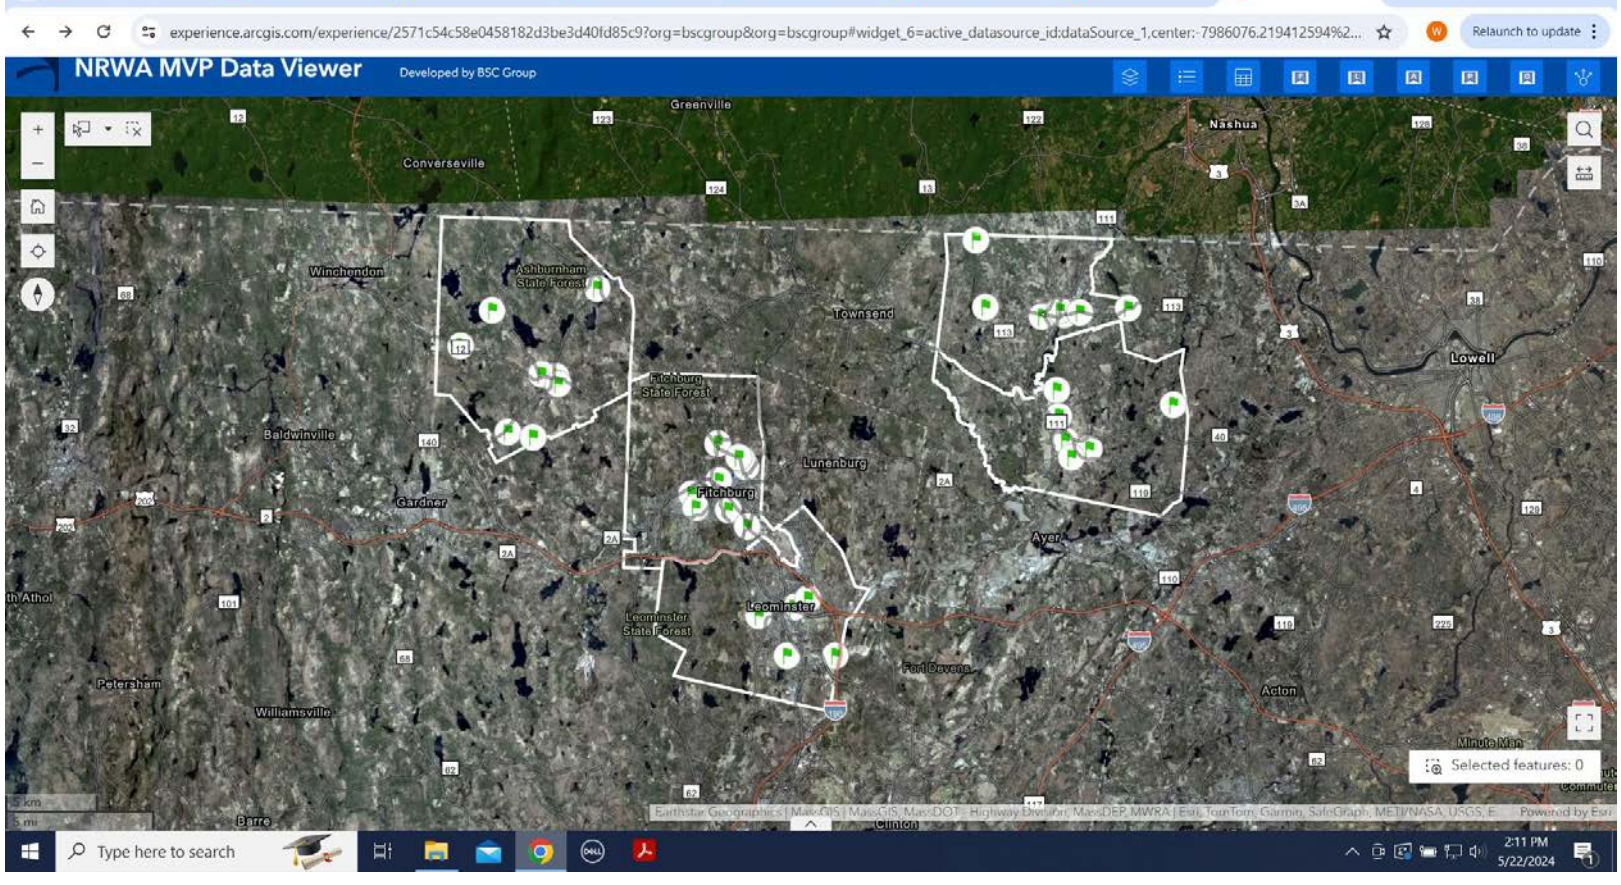
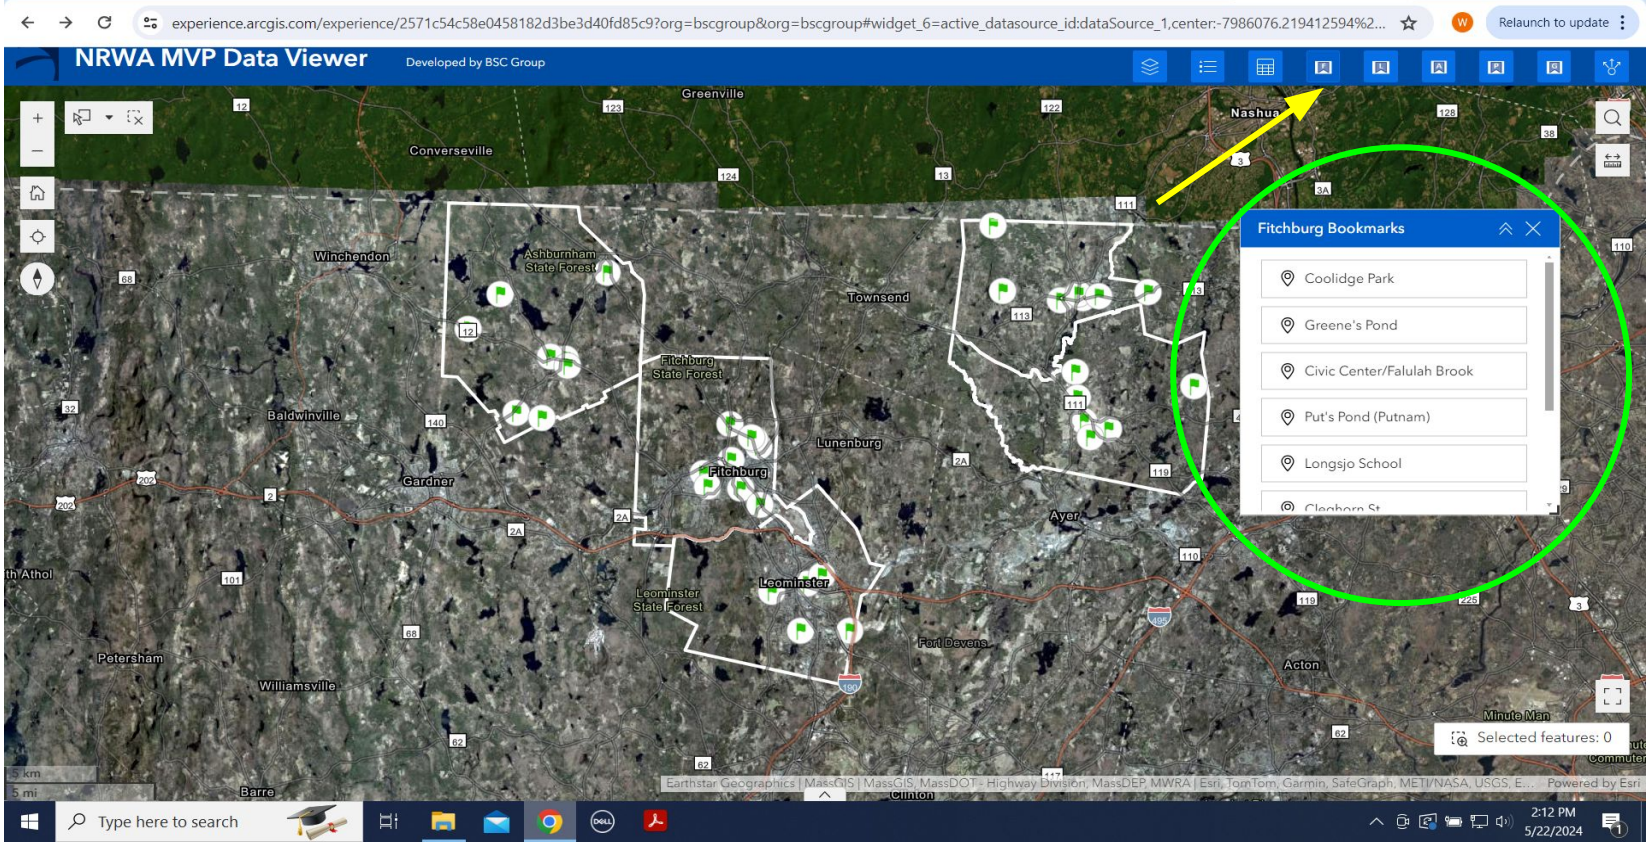
Opening view on BSC DataViewer

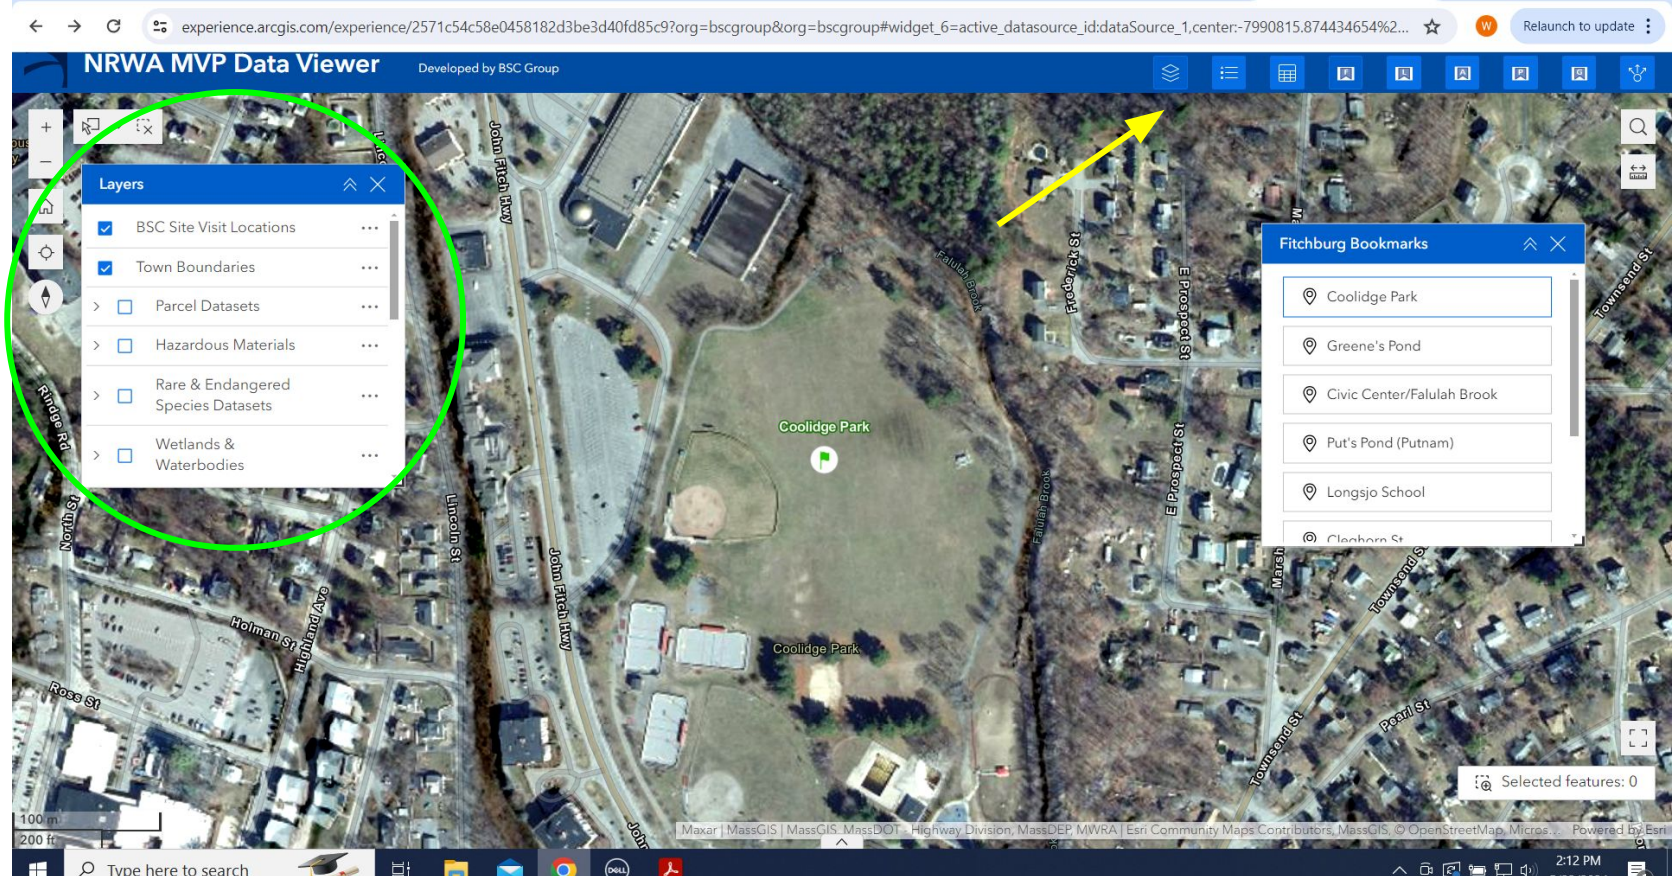
This map shows the five communities and selected sites for each community



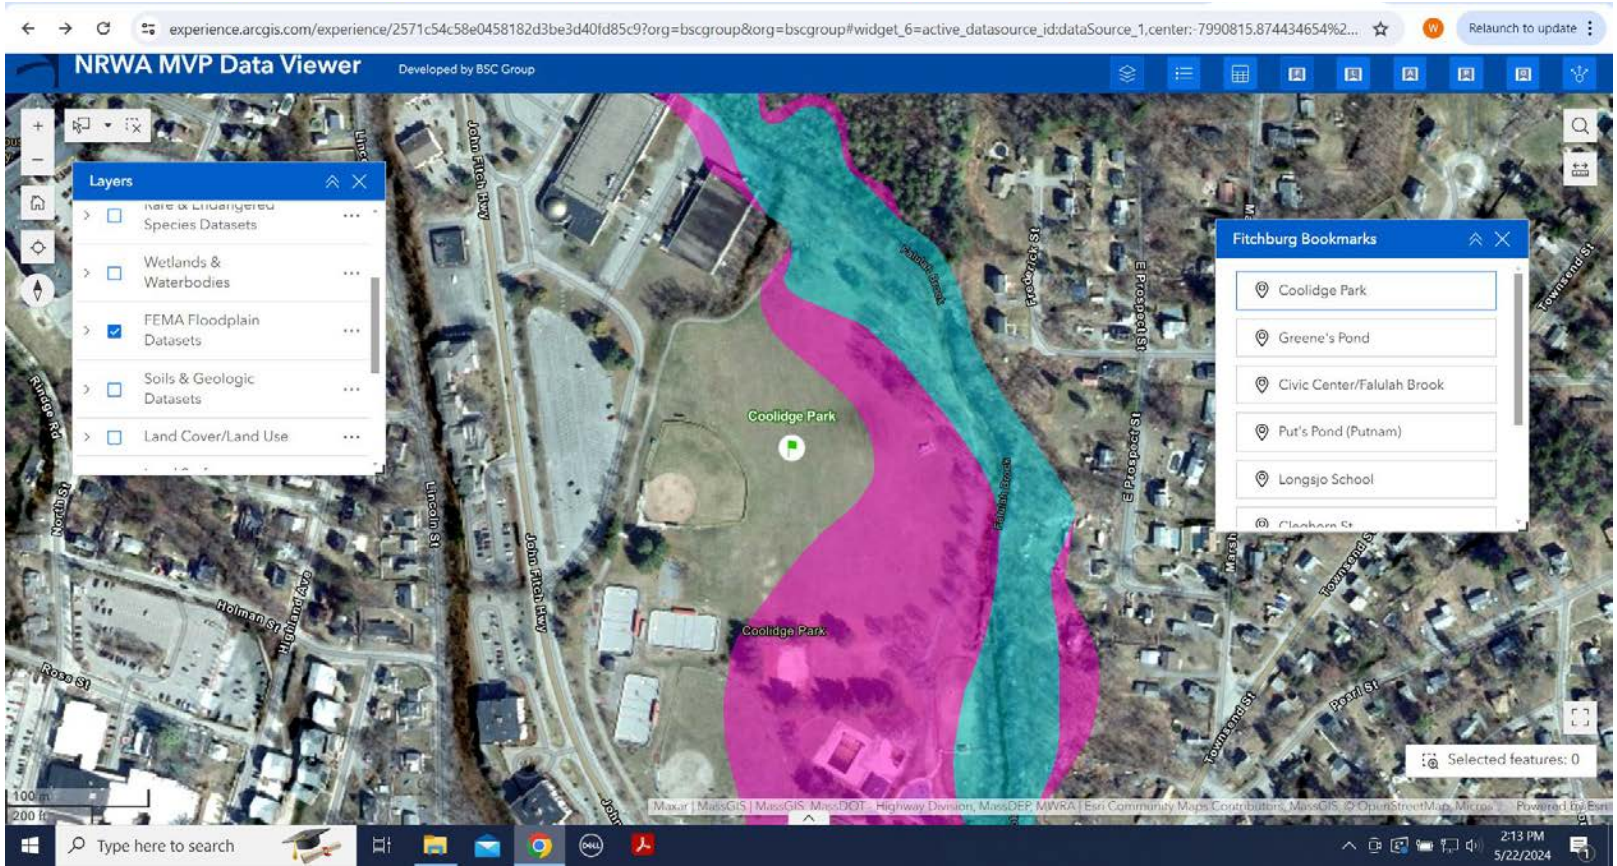
Click on the bookmark icon at the top right to choose community. A drop down list of sites in that community will appear. You may now select a site to view by clicking on it in the site list.

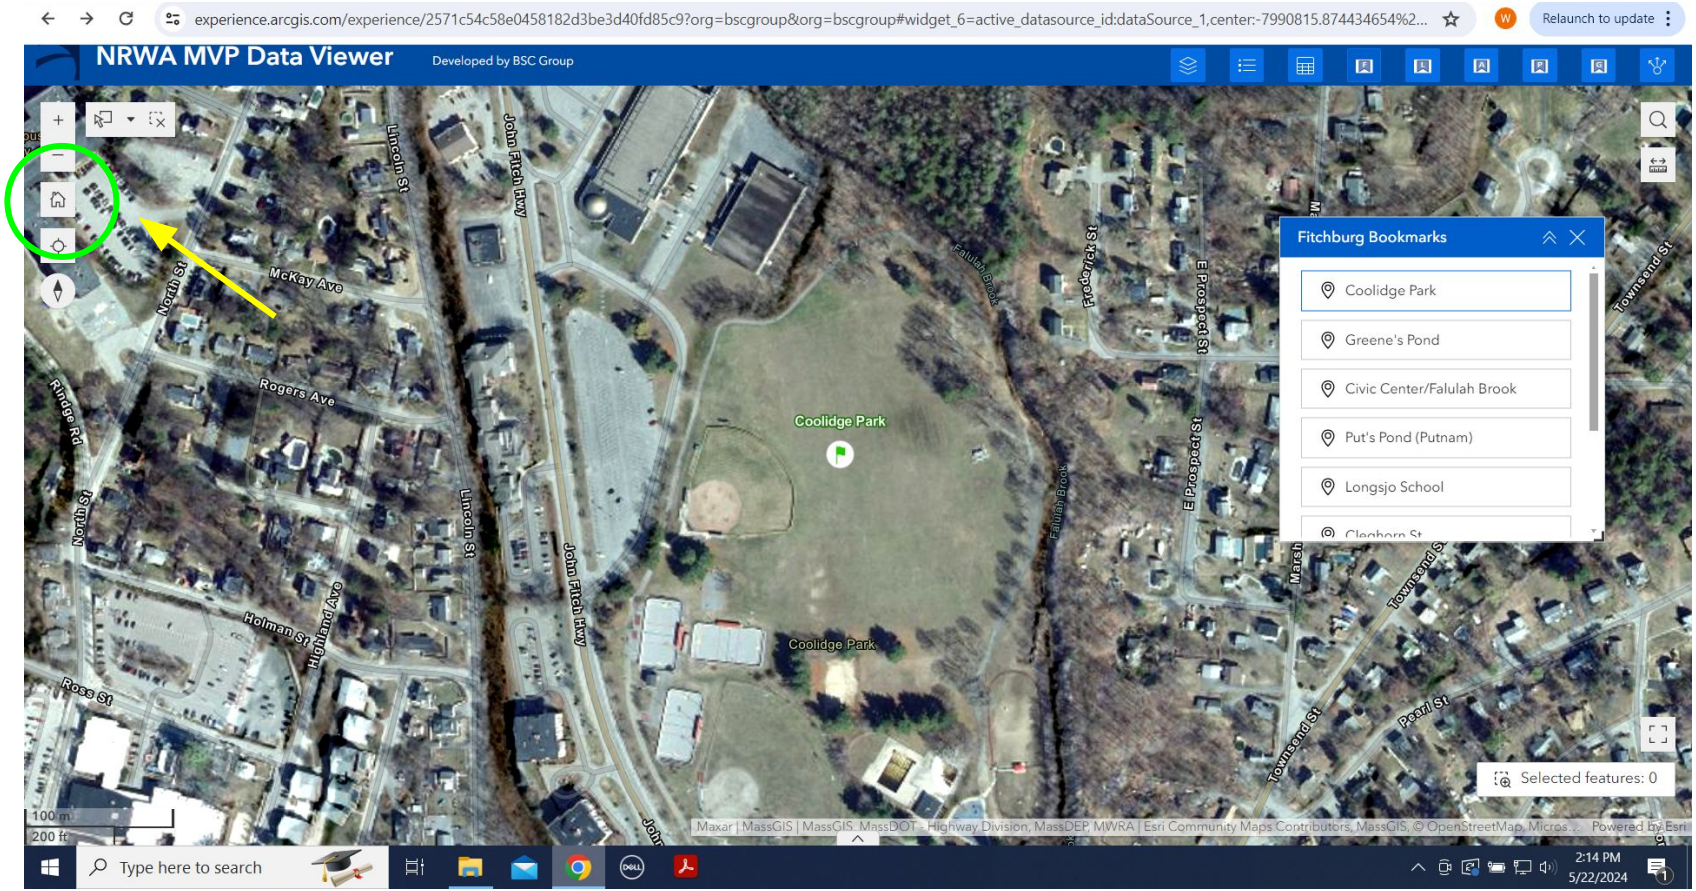


Once zoomed in on the site, click on the Layers icon at upper right. A drop-down menu of layers will appear to the left. Click on any layer to display information such as wetlands, rare species, and floodplain areas.



This view shows the Coolidge Park site in Fitchburg with the FEMA floodplain layer added. Play around and try different layers at each site.





To return to the opening screen, click on the Home icon.
